

Diagnostic instruments

Instrument Image

DI-02-000

Specification/Description

Body Fat analyser

Bio-electrical impedance analysis technique

Use: For determining internal body composition a fast and accurate procedure

Body Logic Pro body fat analyser

Fat analyser, button key pad with storage personal data files

DI-02-001

Handheld refractometer

Simple rubber grip and optical focus system with automatic temperature compensation system

Use : For accurate measurement of specific gravity and protein determination

DI-02-002

Hemacytometer

Double rulings and visible through wide range of illumination. Rulings are 0.1mm below cover glass with fused sodium

Use : For counting of erythrocytes and leukocytes

DI-02-003

Diagnostic instruments

Instrument Image

Specification/Description

Dynatest Dynamomete

Conveniently sized dynamometer is very sturdy, with yellow softballs

DI-02-004

Use: For determining the exact muscle strength in hands in rheumatic disorder and after sport injuries

Reflex Babinski Percussion Hammer

Percussion hammer with foot pin, with screw and 10in/8in

DI-02-005

Reflex Babinsky Percussion Hammer

Babinsky Percussion Hammer with 2 threads, 24cm

DI-02-006

Reflex Berliner Percussion Hammer

Berliner Percussion Hammer with 20cm size.

DI-02-007

Diagnostic instruments

Instrument Image

Specification/Description

Reflex Buck Neurological Hammer

Neurological hammer , pocket fit,
telescoping 4-1/2in to 7in, chrome

DI-02-008

Reflex buck with needle and brush

Buck with needle and brush 18cm

DI-02-009

Reflex Dejerine Percussion Hammer

Dejerine Percussion Hammer with/without
needle 21 cm/ with foot pin, with screw/ 8-
1/4in

DI-02-010

Reflex Percussion Hammer Foot Grade

Reflex percussion Hammer foot Grade adult/
infant , stainless steel, 7 1/2in

DI-02-011

Diagnostic instruments

Instrument Image

Specification/Description

DI-02-012

Reflex Queens Percussion Hammer

Reflex Queens percussion Hammer with plastic
Handles 35 cm/flexible/ adult head 2in,13in,
/pediatric head 1-1/2in,9in

DI-02-013

Reflex Tylor Percussor Hammer

Stainless steel Taylor percussion hammer , 20cm/
small with 6-1/4"/large, 7-1/2"

DI-02-014

Reflex Troemner Percussion Hammer

Troemner Percussion Hammer , 180g/230g, 25cm/9
3/4", with large and small rubber tips, hollow tapered
handle with sharp point, chrome

DI-02-015

Neurological Hammer Dual

sided hammer head Includes
brush and needle

Diagnostic instruments

Instrument Image

DI-Q2-D16

Specification/Description

Aluminum Pinard Foetal Stethoscope

Pinard foetal stethoscope with good shape of bell particularly for acoustics

Use: For auscultating the heart sounds of the embryo in the womb

DI-Q2-D17

Duplex Deluxe Baby Stethoscope

Duplex deluxe baby stethoscope for babies with double ended chest piece , high acoustic performance

DI-Q2-D18

Duplex Deluxe Neonatal Stethoscope

Precision finished double headed chest piece

Use : For newborn babies and infants

DI-Q2-D19

Fetal Doppler Ultrasound Stethoscope

Pocket size ultrasound 2.25Mhz doppler

Use : Provides accurate auscultation of heart, lung and blood pressure tones and ergonomically

Diagnostic instruments

Instrument Image

Specification/Description

DI-02-020

Deluxe dual head stethoscope

Durable dual headed aluminium anodized, dull chestpiece, built in non chill ring

DI-02-021

Stainless steel Cardiology Type stethoscope

Stethoscope cardiology, large aluminium chest piece, smooth mirror/grain finish

DI-02-022

Pediatric Stethoscope

Stethoscope pediatric, brass chrome plated small size chestpiece

DI-02-023

Regular Stethoscope

Stethoscope regular, stainless steel, lightweight aluminium/brass chest piece external non chill ring

Diagnostic instruments

Instrument Image

DI-02-024

Specification/Description

General Blood Flow Doppler Ultrasound Stethoscope

Compact, hand-held unit operates at the proper frequency (5.3MHz)

Use: For detecting blood flow

DI-02-025

Cardiology Stethoscope

Premium grade stainless steel, usually 22k/single head , dual head

Use : Enables accurate auscultation of heart,lung and blood pressure tones ergonomically

DI-02-026

Bowles Stethoscopes

Bowles stethoscopes of folding types

DI-02-027

Finger tip pulse oximeter

Fingler tip pulse oximeter with spot check monitor

Diagnostic instruments

Instrument Image

DI-02-028

Specification/Description

Hand held pulse oximeter

Compacted and lightweight hand held pulse oximeter

Use : For non-invasive spot check measurement of functional oxygen

DI-02-029

Finger Pulse Oximeter

Weight usually 2 ounces, 2.5in long running with a battery/pulse-filling Rate is 0.5% Interference Resistance Capacity Deviation is smaller than+/-1%

Use : For providing instant blood oximeter and pulse reading

DI-02-030

Blood Pressure Cuff Infant

Blood pressure cuff infant , nylon zipper case, adjustable gauge

DI-02-031

Aneroid Blood Pressure Cuff

Aneroid blood pressure cuff with manually adjusted gauge. Large adult size/child size

Instrument Image**Specification/Description****Aneroid Blood Pressure Combo Kit**

Kit with Nylon case and nurse pocket organizer filled, sprauere 22", stethoscope latex free, tape measure

DI-02-032

**Hershman Anal Scope**

Hershman Anal Scope of size 5 inches

DI-02-033

**Kelly Anoscope**

Kelly Anoscope 8" overall length, 6" insertalbe prong and 3/4" in diameter stainless

DI-02-034

**ECG Caliper**

Chrome plated up to 7" radius, length: 3 7/8"

Use: For measuring ECG wavelength

DI-02-035

Instrument Image**Specification/Description****Ultrasonic Nebulizers**

Durable, stretchable double tubes , ultrasonic frequency of 1.7MHz \pm 10%, nebulizing rate 4ml/min

DI-02-036

**Air Compressing Nebulizers**

Free air flux compressing pump 10L/min, maximum nebulizing rate 0.1ml/min with noise 60 dba

DI-02-037

**Otoscope set**

Otoscope(auroscope) set, heins type, brass chrome plated battery handle, lens cap, and three speculae

DI-02-038

**ENT set**

Consisting of Otoscope, with 3 speculae, nasal speculum, bent arm illuminator, tongue depressor, laryngeal mirror, and battery

DI-02-039

Diagnostic

Instrument Image

DI-02-040

Specification/Description

Diagnostic set

Diagnostic set complete with ophthalmoscope, nasal speculum, bent arm illuminator, tongue depressor, laryngeal mirror

DI-02-041

Ophthalmoscope

Ophthalmoscope with aperture complete in presentation box, metal handle accommodates different size battery

DI-02-042

Sphygmomanometers, mercurial

Sphygmomanometer (B.P apparatus), mercurial, 300mm/hg, inflation system

DI-02-043

Sphygmomanometer, Aneroid

Sphygmomanometer (B.P apparatus), Aneroid type, 300mm/hg, complete inflation system, in a pouch

Instrument Image

Specification/Description

Auxiliary Thermometers

Axillary /arm pit type with temperature ranging between 25 to 42 degree celcius

DI-02-044

Thermomete, for Ear,

Pocket ear thermometer/infrared Ear thermometer type , 32 to 43 degree celcius

DI-02-045

Use : For measuring radiant heat with the ear cavity

Clinical Digital Thermometer

Clinical digital thermometer with automatic shutoffs, fast response , alarm signal and break resistance

DI-02-046

Glucose Blood Monitors

Utilizes biosensor technology, wide measurement range, average 1- 33.3 mmol/l, with test momory with or without cholestrol

Use : For accurate and fast blood glucose measurement

DI-02-047
